- Generate inventory reports

Shipments

Inbound & Outbound

- Create new shipments
- View pending/approved
- Amazon FBA shipments
- LTL & SPD options

Tracking

Live Status Updates

- Track all shipments
- Real-time carrier updates
- Amazon FC delivery status
- Scan barcode to track

BILLING

Invoices

View, download, and pay invoices. See due dates and payment history.

Payments

Manage payment methods, view balance, and set up auto-pay.

AMAZON

SPN PARTNER

Connect Account

Link your Amazon Seller Central account for direct API integration.

FBA Inventory

View synced inventory, create FBA shipment plans, print labels.

Analytics

Visualize your inventory trends and performance metrics.

Account

Manage your profile and organization settings.

- Inventory distribution charts
- Stock level trends over time
- Low stock predictions

- Profile & contact info
- Organization management
- API keys & integrations

Pro Tip: Use the Mobile App!

Download our iOS or Android app for barcode scanning, push notifications, and full WMS access on the go.

SHIPMENT TYPES EXPLAINED

When creating a shipment, you'll choose from these options based on your needs:

INBOUND (Sending to 3PLGuys)

LTL

Less Than Truckload

Palletized freight. Use when shipping multiple pallets via freight carrier.

SPD

Small Parcel Delivery

Individual boxes via UPS/FedEx. Best for smaller quantities.

Container

Ocean container (20ft/40ft/45HQ). Direct from port to warehouse.

OUTBOUND (Shipping from 3PLGuys)

LTL

Pallet Forwarding

Ship pallets to your customers or other locations via freight.

SPD

Box Forwarding

Ship individual cartons via small parcel carriers.

Pick & Pack

D2C fulfillment. We pick, pack, and ship individual orders.

AMAZON FBA SHIPMENTS

INTEGRATED

FBA SPD

Small Parcel to Amazon

Send individual cartons to Amazon Fulfillment Centers via UPS/FedEx. Auto-generate shipping plans from your connected Seller Central account.

FBA LTL

Pallets to Amazon

Ship palletized inventory to Amazon FCs via LTL freight. We handle BOL generation, pallet labels, and carrier coordination.

HOW TO CREATE A SHIPMENT

1

Select Type

Choose inbound, outbound, or Amazon FBA

2

Add Items

Select products and specify quantities

3

Review

Verify details and add notes if needed

4

Submit

Send for approval and track status

Support Tickets

Push Notifications

Live Chat

Create and track support requests directly in the dashboard

Get instant alerts for shipment updates and approvals

Chat with our team during business hours
