Wix Integration Guide

HOW IT WORKS

## How the Integration Works

A fully automated flow from order to delivery — no manual steps required.

- Customer Places Order on Wix**  
When a customer completes checkout on your Wix store, the order is captured instantly.  
✓ Order details: items, quantities, shipping address
- Order Syncs to 3PLGuys WMS**  
The order is automatically synchronized to our system and submitted as a Pick & Pack order — ready for fulfillment.  
✓ No CSV exports, no manual uploads, no delays
- We Pick, Pack & Ship Same-Day**  
We prepare the shipment and ship it. Once shipped, we submit the tracking information to Wix — Wix marks the order as fulfilled and sends an automated shipping confirmation email to your customer.  
✓ Orders before 2 PM PT ship same day
- Tracking Pushed to Wix Automatically**  
Tracking codes are pushed to Wix automatically. You can track and manage your Wix orders from both the 3PLGuys dashboard or the Wix interface.  
✓ Full visibility in both systems
